

BUILT ENVIRONMENT AND PROPERTY PROSPECTS SEMINAR 2018

11 January 2018 • 9.30am - 5.00pm • Grand Copthorne Waterfront Hotel

The global cyclical recovery continues. Economies of China, USA and Eurozone are showing signs of recovery. Nearer to home, ASEAN economies such as Indonesia and Malaysia are projected to remain resilient, riding on healthy domestic demand and sustained improvement in exports. While the global economic recovery is expected to continue, global political risks remain from uncertainties over policies of the US administration and on-going Brexit negotiations.

Against this backdrop, how will the built environment in Singapore perform in 2018? What are the opportunities, challenges and prospects for the Singapore built environment? How should companies prepare themselves during such unpredictable times? What should built environment firms look out for locally and beyond Singapore? Once again, the seminar brings together prominent economist, policy makers and industry experts to address these burning questions.

FEES: S\$430.00* / S\$465.00 incl. of GST

**Discounted rates for participants who register and pay before 11 Dec 2017 / participants who register and pay in groups (minimum 3 per group from the same organisation).*

Lunch and refreshments will be provided.

Seminar materials are downloadable on 11 Jan 2018.
