

WEBINAR:

## DIGITALIZING PAYMENTS IN BUILT ENVIRONMENT

Date: 15 April 2021

Time: 2pm – 3pm

Dear Sir/Mdm,

As digital disruption grows stronger, fuelled by rapid advancements in digital technologies and global climate changes, the Built Environment sector is looking to move ahead of the disruption curve by embracing digital technologies. Digital Procurement Solutions are remaking business supply chains by providing access to previously unavailable data, allowing strategic sourcing to become more predictive, transactions to become more automated and supplier relationship management to become more proactive. However, many businesses continue to miss out on opportunities from underinvestment in these solutions.

Join us in this webinar to learn more about digital transactions (E-procurement, invoicing and payments) and the various solutions that can help your company digitalize the processes to save time and money.

### Programme:

- **Digitalizing Procurement, Invoicing and Payments for the Built Environment sector** by Cornelius Kan, Assistant Director, Built Environment
- **Procurement Ecosystem for the Construction Industry** by Leon Yeo, Co-Founder, Doxa Holdings
- **Integrated Facilities Management & digital Procurement** by Russell Kok, Chief Marketing Officer, IBASE Technology Pte Ltd
- **Q&A Session**

Please RSVP by clicking on the button below, by **12 April 2021**. An email with the Webinar details will be sent to you.
